The Times of India with Ray

Times Of India, an English daily newspaper worried about providing high bandwidth wi-fi to a large number of users, with security being one of the most important needs used Ray Wireless Access Points R6B-C. Along with Guest Portals and Enterprise Policy, Ray helped them with their complete Wi-Fi setup that provides great connectivity and embedded security.

Requirements

- › Times Of India had a requirement to manage multiple sites or locations spread across multiple cities in PAN India.
- › Authentication/NAC of BYOD as Times Of India did not want any Wi-Fi usage without the IT admin approving the BYOD.
- › Restriction of 2 device policy per employee was a requirement.
- › Times Of India has to keep a history of each employee's browsing data for security Audit purposes.
- › To create 2 categories of users, i.e., staff and guests to differentiate the internet experience between them.

Solution

- › Ray provided cloud-managed Indoor Wireless Access Point – R6B-C.
- › R6B-C 4x4 is cloud managed and is a one-stop solution to manage ultra-high bandwidth & user density.
- › Ray enabled device Whitelist policy for BYOD.
- › Ray enabled individual content, speed & quota policies to provide different internet experiences to the users.
- › Ray enabled Email OTP authentication of NAC for approval for logging in to the network where only laptops were allowed. No other device was allowed.
- › Ray created an Internal SSID with Captive Portal that had a login with company email and password as an email OTP for every login.

Key Takeaways

- › Ray R6B-C Indoor Wi-Fi access point provides the best coverage and speed suitable for the Enterprise environment.
- › Ray enabled device Whitelist policy to ensure “No device can log in to the internet without the OTP password, enabling strong BYOD policies”.
- › The Content Policy to filter objectionable (non-office) content. E.g., criminal sites, Porn, P2P, etc.
- › Cloud Managed network helps ease off operations as it has centralized management for all offices & branches spread across the country.
- › Captive portal managed by cloud helps manage the Times of India’s device policy and sets double authentication for entering the network maintaining the security and usage policy.
